Realizing Clearly Outweighed the Buying Demand.

MUCH BUSINESS DONE.

Selling Was Not At All Precipitate, and Showed Tendency to Decrease as Prices Fell-Efforts for an Advance Futile.

(By Associated Press.)

NEW YORK, Oct. 23.—The warning pontained in yesterday's flurry in the calimoney rate to 6 per cent, was taken to heart by the speculative element to-day, and the rather intemperate buying which has flooded the market since the latter hart of last week was materially current. part of last week was materially curtailed. There was a great deal of business done in the first hour, but the selling to realize clearly outweighed the buying demand, in spite of some sharp manipulative advances in a tew specialities and tive advances in a few specialties, and the average level of prices went below

demand, in spite of some sharp manipulative advances in a few specialties, and the average level of prices went below last night.

The selling was not at all precipitate, and showed a tendency to decrease as prices went to the lower level, but when efforts were made to bid up prices again it was found that the selling orders were waiting at the higher level in sufficient volume to force prices back again. Late in the day a much heralded upward movement in Northern Pacific came into notice. For several days past rumors have been heard of a bull pool in this stock hased on the large short interest known to exist in this stock and the reduced floating supply, owing to the recent buying of a substantial character, which appeared when the quotation got below 50. The price was 54½ to-day when the advance began, and it carried the quotation up through some very heavy selling without material setback to a shade over 58, making the net gain 2%. Great Northern preferred was advanced 5 points corelatively. It was alleged in behalf of the movement that the impairment in the earning power of railroads in the Northwest by the shortage of the spring wheat crop had been greatly overstated.

The statement of the Northern Pacific for the second week in October shows a decrease in gross earnings of \$11.348, notwithstanding additional mileage, compared with last year of nearly 400 miles. There was a notable disinclination in the rest of the market to respond to this movement, and the recoveries were quite insignificant. The fall in the call-loan rate to 3½ per cent, in the last half hour was equally without effect in reawakening speculative interest, and the market closed irregular at small net changes. The earlier rates for call loans ruled from 4 to 5 per cent, in the last half hour was equally without effect in reawakening speculative interest, and the market closed irregular at small net changes.

4 to 5 per cent, and it is not unlikel that the late reaction was due to the abstinence of speculators from further

abstinence of speculators from further eneroachment on money resources. Banks called loans to the extent of several million dollars this morning, and the shifting of loans which resulted caused quite an active bidding for money.

The events of the day had the effect of awakening some fresh uncasiness over the money market conditions, and these were not altogether allayed by the renewed weakness of exchange, especially Paris cheques. The transfer of currency to New Orleans through the Sub-Treasury was also renewed to-day.

There was a falling off in business in bonds and prices reacted at various points. Total sales, par value, \$1,500,000, United States bonds unchanged on last call.

Wheat and Cotton

Are commodities and their prices are regulated by the law of supply and bemand. They are not affected by the exigencies of the political situation, nor by labor disturbances, nor by an unsettled monetary condition. This year this situation in each is practically the same; our crops of each are much smaller than usual, while European stocks are practically nothing, while Old World crops are small. When our crops are small and European crops are large prices

but when both Old World and New World crops are small prices must advance, and the U. S. benefits more largely than does any other country, because it raises more of both wheat and cotton. That, in a nutshell, is the situation this year; prices seem high (in comparison with other years), but are relatively low when the crop situation is considered from a world standpoint. We expect to see still higher prices for both wheat and cotton, and should be pleased to receive orders to buy or sell either on a margin. Get our free book.

SENSATIONAL SUIT.

An Attempt to Control the Price of

Fertilizers.
(Special Dispatch to The Times.)
KNOXVILLE, TENN., October 23.—A ensational litigation has just begun in Hawkins county, Tenn., against the Virinia Carolina Chemical Company, of Richmond, Va. It is alleged by Rogan, Nice and Smith, of Rogersville, Tenn., that this company is a "fertilizer trust," that this company is a "Tertilizer trust," and has secured almost all the fertilizer industries in Virginia, South Carolna, Georgia, Florida, and Tennessee, and has caused others to act with it in raising the price of fertilizers from \$2.50 to \$3 er ton. The bill seeks to regulate the price of

ertilizer and relieve the "trust" situa-ion, if possible, and also to recover \$5,000

as damages. It bids fair to be a hotly contested case involving the trust laws of Tennessee.

QUOTED SECRET INSTRUCTIONS

Chairman Jones' Charge Against President McKinley.

REQUESTED PUBLICITY FOR REST

He Has Waited for More Than Two Weeks and Received No Acknowledgment of the Receipt of His Note.

(By Associated Press.) CHICAGO, October 23.-Senator Jones, chairman of the Democratic National Committee, made the following statement

"The instructions given to the commissioners on the part of the United States to negotiate the treaty with Spain in Paris in 1898 have never, so far as I know, been made public. When the treaty was before the Senate for ratification there was a great demand that these instructions should be made public. So great was the desire for information that many newspapers published what was claimed to be inside information about what these instructions contained but for some reainstructions contained, but for some rea-son, and doubtless not an unimportant one, this desire was not gratified.

one, this desire was not granted.

NO REPLY.

"The President in his letter of acceptance qouted a part of these, as I understand, secret instructions. I address dhim in a note October 5th calling his attention to this fact, and requested that inasmuch as the part of the instructions which he considered favorable to the nostwhich he considered favorable to the posi-tion of his political party was so used by him, the remainder should be made public. Conceiving it impossible that the President of the United States would use part of a secret document for the advance-ment of his personal fortunes and the interests of his own political party, and at the same time refuse to the public remainder of this document, I expected to have a prompt answer from the Presi-dent. I have now waited for more than two weeks and have not had the honor of an acknowledgment even of the re-ceipt of my note."

GROVE-AVENUE CHURCH.

Executive Committee Was Enlarged Last Night.

To invoke the help of the Eaptists of Virginia a committee was appointed at the minister's conference Monday morning to draw up a paper setting forth the needs of the afflicted congregation. The committee held a meeting and has issued the following appeal:

To the Baptist Brotherhood:

To the Baptist Brotherhood:

Perhaps not in all its history has the Baptist Pastors' Conference of Richmond and vicinity ever held a meeting so full of sympathy and spiritual power as that held on last Monday morning. The destruction of the Grove-Avenue Church was formally announced, and a motion was offered to prepare and publish a communication with a view of enlisting the sympathy of our brethren throughout the country in the rebuilding of this house of worship. Pending the adoption of this motion, Dr. Hawthorne gave a truly affecting account of the disastrous loss which the fire had inflicted upon, his church, and told in thrilling words of

the loyal and self-sacrificing spirit of his people. He said that thus far his people had not been able to get together, but that they were united heart and soul in the purpose to begin at once the erection of another house. He spoke of the wonderful outburst of sympathy and encouragement which had immediately followed the burning of the house, and of the unutterable comfort and cheer which this manifestation had imparted to his people. In all he said there was a spirit of joyful submission to the will of God.

A number of brethren followed Dr. Hawthorne in addresses which, while abounding in brotherity compassion, were radiant and joyful in their spirit. All spoke confidently of the speedy rebuilding of the house and all were ready to help. The tide of feeling rose higher and higher until it broke out in song. "Blest be the tie" rang from every heart, and a joyful handshake betokened the mutual devotion of the brethren and especial enthus slasm in the effort, already begun, to build another home for the Grove-Avenue people.

The undersigned were named as the The brides and Mr. Frank Bumberghe, Miss Ethel Woolwine and Mr. The brides and Mr. Second as the contracting parties were Mr. M. W Frantz, a popular young business man and Miss Evelyn Tucker Shleids, the pretty young daugiter of Mr. J. W. Shleids, cashler of the First National Bank. Rev. N. H. D. Harper, D. D., pastor of the church, officiated and Mrs. Kinner was at the organ.

The best man was Mr. George Shleids, brother of the bride and the maid of honor, Miss Mattle Frantz, sister of the groom.

people.

The undersigned were named as the people. The undersigned were named as the committee to announce to the denomination this grievous calamity and to invoke their helpful kindness. Let not the brethren forget that it is a great undertaking to erect a suitable house for this congregation. The church is not large nor wealthy, but willing to do its utmost, and yet, after this has been done, they must fall far short of the ability to do this work. They will really need help, and they richly deserve it. We do, therefore, in the name of the Kichmond Baptists, who have always found it delightful to help others, affectionately appeal to the liberal people to whom this comto the liberal people to whom this com-munication may come to send Dr. Haw-thorne a contribution for his building fund. We appeal to pastors to present this claim to the attention of their peothis claim to the attention of their peo-ple. We respectfully ask our Baptist pa-pers to let this appeal find a place in their columns, in such shape as they may deem best. What is to be done must be
